TRAIL

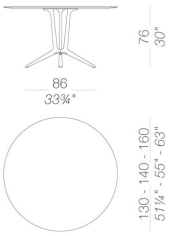
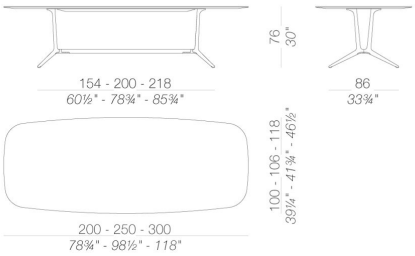
Giuseppe Bavuso | 2023 | Outdoor

Manchmal ist es besser, die Hauptstraße zu verlassen und die weniger befahrenen Wege zu wählen. Stil für große Reisende, wie Giuseppe Bavuso, der TRAIL, den neuen Tisch der Kollektion Lapalma, getauft hat. Das Profil ist eine Mischung aus den spritzigen 1950er Jahren, nordischer Essentialität und höchster italienischer Handwerkskunst. Die Basis aus Aluminiumdruckguss, auf der sich die drei weichen, zoomorphisch anmutenden Beine heimlich zu einem einzigen Design zusammenfügen, gibt den Ton an. Die runde Tischplatte, die wie das Gestell in verschiedenen Materialien und Ausführungen erhältlich ist, erstreckt sich auf 3,60 Meter und macht den Tisch zu einem extrem leichten und filigranen Besprechungstisch, der sich ideal für die fließenden Räume eignet, die das moderne Leben kennzeichnen - vom Büro bis zum Zuhause. Alle Materialien sind zerlegbar und recycelbar. Und in diesem Fall ist Nachhaltigkeit kein Weg, sondern der Königsweg von Lapalma.

TAVOLO CON PIANO ROTONDO



TAVOLO MEETING



Sometimes it is better to leave the main road and choose the paths less travelled. Style for great travellers, like Giuseppe Bavuso, who has christened TRAIL the splendid new table in the Lapalma collection. The profile is a cross between the most effervescent 1950s, Nordic essentiality and the highest Italian craftsmanship. Setting the pace is the die-cast aluminium base where the three soft, zoomorphic-inspired legs secretly join together, declaring a single design. The round top in HPL Fenix 10mm available in different colors extends to 3.00 metres. Designed to furnish gardens, terraces, public areas and cafés. All materials are disassemblable and recyclable. And in this case sustainability is not a path but Lapalma's high road.

Istruzioni di uso e manutenzione

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.

When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base).

Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents.

An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
