APTA

Romano Marcato | 2012 | Outdoor

A play of contrasts provides great balance, leaving the sturdy base units and the light top, raised slightly above the frame, to communicate. This is the stylistic hallmark of the APTA table, a tribute to the dimensions of a perfect combination, A play of contrasts, experienced with great balance, allowing the solidity of the painted metal bases and the lightness of the top to dialogue. The structure is available in white fenix, black fenix, oak wood or open pore black. This is the stylistic feature of the APTA table, a tribute to the proportions of a perfect combination. Ideal in any context, from the office to the home.

TAVOLO RETTANGOLARE

Lightness and sturdiness combined

In the extremes of day and night, which encompass all the colours of the forest, ocean, desert and metropolis, the APTA table expresses its original design, elegantly raising the top from the frame. And this is another vital contrast that combines the sturdiness of the base supports with the lightness of the top.

Istruzioni di uso e manutenzione

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.

When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base).

Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents.

An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
