PLUS

Francesco Rota | 2017, 2024 | Outdoor

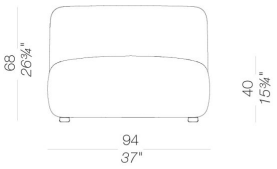

They look for and attract each other. This combination of shapes and colours gives rise to PLUS sofas, a system of modular elements that enhance the character of all community spaces. The profile is soft and the seat is generously wide enough to accommodate the body lying down. A host of solutions can be found, thanks to an extremely simple linking system that re-arranges shapes and redefines the profile. A small but important world for gathering at home, in the office or in any space. And when you want a moment to yourself, the SCREEN panel, which can be used as a backrest, creates a very discreet area.

POUF

A seating, a system, a world.

Pouf, sofa, relaxation island: around a blue swimming pool or a green garden, the PLUS sofa invites us to pleasant outdoor moments.

An idea is an addition. PLUS. An addition because this system of modular elements offers unparalleled elegance and versatility. An addition because the soft and attractive profile of each solution, from the pouf to the chair and sofa, extends to accommodate a body in the lying position. An addition because thanks to an extremely simple hooking system it just takes a second to re-arrange and redesign the profile. More than an idea, it is a world.

Istruzioni di uso e manutenzione

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.

When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base).

Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents.

An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
