RYO

Enzo Berti | 2017

It slightly tilts. And leaving the body free to lean or stand, RYO goes beyond its identity and becomes magical. Inspired by objects of African tribal culture, this stool transforms a break into a moment of extreme wellbeing. Its solid wood seat, smooth and attractive to the touch, is a sculpture that embraces from all sides. The column is height-adjustable and ends with a small tilting base. The entire collection, also in a wall version, extends and lightens the concept of relaxation. Wherever you are, waiting means staying in motion.
