# TRAIL

Giuseppe Bavuso | 2023 | Outdoor

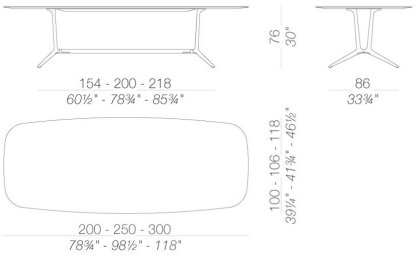

A veces es mejor abandonar la carretera principal y elegir los caminos menos transitados. Estilo para grandes viajeros, como Giuseppe Bavuso, que ha bautizado TRAIL la espléndida nueva mesa de la colección Lapalma. Su perfil es un cruce entre los años 50 más efervescentes, la esencialidad nórdica y la más alta artesanía italiana. Marca el ritmo la base de aluminio fundido a presión, donde las tres patas blandas de inspiración zoomórfica se unen en secreto, declarando un único diseño. El tablero redondo, en diferentes materiales y acabados como la base, se extiende hasta los 3,60 metros para una mesa de reuniones extremadamente ligera y delicada, ideal en los espacios fluidos, desde la oficina al hogar, que marcan la vida moderna. Todos los materiales son desmontables y reciclables. Y en este caso la sostenibilidad no es un camino, sino la carretera de Lapalma.

## TAVOLO CON PIANO ROTONDO

## TAVOLO MEETING

Sometimes it is better to leave the main road and choose the paths less travelled. Style for great travellers, like Giuseppe Bavuso, who has christened TRAIL the splendid new table in the Lapalma collection. The profile is a cross between the most effervescent 1950s, Nordic essentiality and the highest Italian craftsmanship. Setting the pace is the die-cast aluminium base where the three soft, zoomorphic-inspired legs secretly join together, declaring a single design. The round top in HPL Fenix 10mm available in different colors extends to 3.00 metres. Designed to furnish gardens, terraces, public areas and cafés. All materials are disassemblable and recyclable. And in this case sustainability is not a path but Lapalma's high road.

**Istruzioni di uso e manutenzione**

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.

When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base).

Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents.

An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
